

🔥 Candle Magic 🔥

How to do candle magic:

Choose your intention.
Make it clear and specific.

Select a corresponding colored
candle for your intention. White
candles will substitute any color.

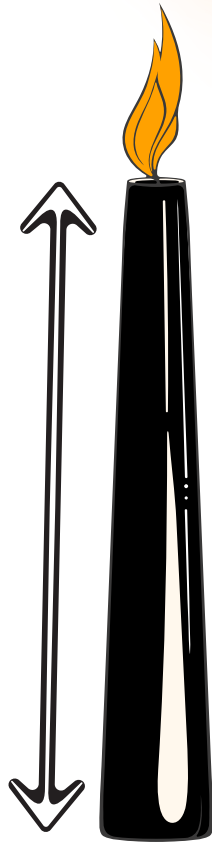

Cleanse your candle. Do this like
you would any other magical tool.

Anoint the candle. Do this with your
energy, rub in neutral oil, roll it in
corresponding herbs, etc.

Light your candle.
Focus on your intention and
let the flame do the work

🔥 Watch the Flame

The size and movements of your
candle's flame will tell you how
your spell is going. A tall, steady
flame suggests that your
intentions will manifest, while a
short, dancing flame could mean
your intention is weak or unclear.

Anoint your
candles with
neutral oil
starting
from the
middle, then
to the north
and south
pole.
